Pricing is based on the number of Vorne XL devices.

	BASIC	ADVANCED
10-Pack (Annual/One-Time)	\$2495/\$3995	\$3995/\$5995
Each after Pack purchase (Annual/One-Time)	\$50/\$100	\$100/\$150

**License:** Product is node-locked to a PC/Server. Additional license seats can be purchased at a discount for the same location/installation. Call or E-mail for quote. Annual licenses must be renewed each year from the original date of purchase if the software is still required. One-Time licenses will function indefinitely.

**Installation:** Product can be installed on both a server and desktop PC for interactive and back-end activities.

**Training:** Includes one hour of training - guiding users through the basics of Configuration Studio and designating one user as point person to become subject matter expert. Additional training available and quoted upon request.

**Support:** E-mail, telephone and online product support is included in the price of the software. Users should have a working knowledge of typical Microsoft Windows applications and have a thorough understanding of Vorne XL configuration. Vorne XL factory training is always recommended for those who manage Vorne XL devices. Please contact Vorne Industries for a schedule of their training sessions in Itasca, Illinois.

**Note:** Wireless networks are discouraged as any interruption of transfer can cause an indeterminate device state. This may require physical access to the device using a serial cable and instructions from Vorne Industry to recover.

**\*Trial License:** Supports only download and functions that don't affect the operation of the XL with the exception of Device Identify which temporarily and non-destructively displays the each device's Asset ID and IP Address.
