Pricing is based on the number of Vorne XL devices.

10-Pack	\$2,495	\$2,495	\$2,995	\$3,995	\$3,995	3,995*
Each XL Device after 10-Pack purchase	\$165	\$165	\$215	\$225	\$225	\$225

ERP Integration: Add *\$2,000 for remote integration assistance which includes coordination, planning, implementation and testing.

License: Product is assigned to a PC/Server. To add PiXL -OR- PLC functionality to Bundle or ERP, add \$1495/\$99.

Installation: It is recommended to install Data-Link versions that interface with a PLC via OPC LOCALLY (per plant) for performance reasons.

Training: Includes one hour of training - guiding users through the basics of the Data Link and designating one user as point person to become subject matter expert. Additional training or configuration/programming services available and quoted upon request.

Support: E-mail, telephone and online product support is included in the price of the software. Users should have a working knowledge of typical Microsoft Windows applications and have a basic understanding of SCADA type software.
